Dear Vice President Joseph,

As you are no doubt aware, on Sunday the undergraduate student councils opted to abstain from voting on approval for The YU Alliance and have instead deferred the approval process to the administration.

Meanwhile, other new clubs have been informed of their approval status, giving them the opportunity to table at the club fairs on both campuses, as well as advertise to the student body on the student email channels.

While the Beren club fair has passed, we do not intend to miss the upcoming opportunities available to other clubs. Event planning for this semester must commence soon, and we should not have to wait indefinitely.

For this reason, we expect a final decision from the administration regarding the status of The YU Alliance in writing no later than 4:00pm on Wednesday, in order to enable us to present at the Wilf club fair that evening.

In the absence of such a decision, we will be forced to begin taking alternative action.

Sincerely,
The YU Alliance
