I read your description below and it is not consistent with my recent conversation with Tai and [REDACTED]. The following stud went out on Tuesday and it looks like this new club will provide the space you are hoping to create. I hope you and the Jewish Activism Club are able to collaborate. Please let me know.

Do you care about social issues in the Jewish community?

Dear Dr. Nissel,

Thank you so much for taking the time to talk with me and the student council presidents.

I would like to call this GSA club **ואהבת** and the club description will be as follows: This club will provide a safe place for students to meet, support each other, and talk about issues related to the intersection of sexual orientation and Jewish identity.

After speaking with my fellow LGBT students, one of the primary concerns was the lack of the word 'gay' or usage of LGBT+ in the club name or description. If it is possible, I would ideally like to replace sexual orientation with LGBT+, to read "the intersection of LGBT+ and Jewish identity."

Again, thank you,
